Deb,

Following up on today's meeting, I'll work on filling in gaps in the attached summary of EPA activities in the area (especially current activities; many of those in the current document are past activities). Would it possible for you to raise this with the SLT and ask them to have their folks reach out to me with any additional current or planned activities in the area?

I will also connect with our 112r folks re: Suncor.

Have a great July 4th weekend!

Corbin
